

DEMAND HIGH LEVELS OF CLINICAL EVIDENCE TO SUPPORT CLINICAL DECISIONS

The practice of Evidence-Based Medicine is dependent on the use of the best available clinical evidence. Below is evidence in support of the Bardex® I.C. Anti-Infective Foley Catheter with Bard® Hydrogel and Bacti-Guard® silver alloy coating.

(Over 20 abstracts presented at scientific conferences)

The Bardex® I.C. Anti-Infective Foley Catheter with Bard® Hydrogel and Bacti-Guard® silver alloy coating is supported by the highest level of clinical evidence.
